### PROFILE

Experienced Frontend Developer with **5+ years** of hands-on expertise in building scalable, high-performance web applications using Angular, ReactJS, TypeScript, and RxJS. Skilled in crafting clean, modular architectures Adept at translating complex UI/UX designs into pixel-perfect, responsive interfaces using SCSS, Material Design, and API integrations. Proven track record in leading teams, mentoring juniors, and delivering enterprise-grade solutions with agile practices and CI/CD pipelines.

### WORK EXPERIENCE

#### Senior Frontend Developer

2023 - PRESENT

Jab Companies, GY

- Led the frontend development of large-scale web applications using React, TypeScript, and Redux ensuring smooth performance.
- Collaborated with cross-functional teams to deliver enterprise-grade solutions and mentored junior developers to uphold code quality.
- Worked closely with designers and backend teams to deliver user-friendly, responsive interfaces.

#### Senior Frontend Developer

2022 - 2023

Veroke, Pakistan

- Built and optimized web applications using ReactJS, implementing lazy-loaded modules for better performance and scalability.
- Integrated various third-party APIs and libraries to extend application functionality and enhance user experience.
- Worked with Git for version control and collaborated with cross-functional teams to deliver features efficiently and on time.

#### Frontend Developer

2020 - 2022

Cognitive Healthcare International, Pakistan

- Developed a secure and user-centric healthcare web application using Angular, focused on managing patient records and real-time data visualization.
- Optimized UI for accessibility and performance, enhancing the overall user experience for medical professionals and patients.
